

From grid dispersion to decision-makers: a technical-finding-to-stakeholder map

TECHNICAL SIGNAL

POLICY / ECONOMIC LEVER

INSTITUTION / SECTOR

Within-quarter CI
dispersion signal

Flexibility & storage
investment case

NESO & Ofgem

Quarterly H1 nowcast
MASE 0.376

In-year carbon-budget
early warning

DESNZ & Climate
Change Committee

Transition-risk
market signal

Energy investors &
carbon-market participants

Regime-stable
ranking (p 0.92-0.97)

Monitoring layer, not
inventory replacement

HM Treasury/ONS ·
devolved & local bodies

*The H1 nowcast forks: the same forecast underwrites both an early-warning use (DESNZ/CCC) and a market-risk use (investors).
Predictive attribution, not a causal policy lever - see Section 5.4/5.5 for the accompanying caveats.*
